

## The Madison County Add+Vantage

### Five Math Interventionists = One Expert Leadership Team

Becky Reister

Mary Greene

Lucy Anderson

Elizabeth Wright

Kelly Livers

The five Madison County Mathematics Intervention Teachers (MITs), funded through the KDE's Mathematics Achievement Fund, are passionate, knowledgeable leaders who've trained over 80 Madison County educators in diagnosing and advancing students' understanding of number and operation. They have worked to create an extensive collection of resources for effective implementation of the Common Core State Standards for Mathematics. Through several high-quality conference presentations and by hosting visiting educators, the MITs are sharing with others interested in learning about sustained, job-embedded professional development for effective school-wide implementation of mathematics Response to Intervention.

*"I can better understand what the kids are thinking and then I know exactly where to go with it and how to build on that so they can do the more difficult concepts that I teach in the fifth grade."* - Beth Richardson, 5<sup>th</sup> grade teacher

*"They're not just going to know one way to do something. They're going to be problem solvers, which I think is going to be an amazing life skill for them."* - Leslie Lilly, 5<sup>th</sup> grade teacher
